

Assembly Instructions

EPOC722-36-7 Epic Oval Curving Cabinet with Riser
EP0812-29-14, -36-7 Epic Oval Cabinet with Riser

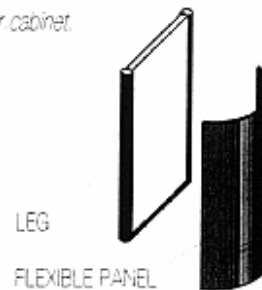

Note: Above cabinets are made with similar parts. Follow the instructions to assemble your cabinet.

1. Stand up one center leg (ELC), and velcro one flexible panel (EFP) to create curved leg.

2. Repeat step 1 to create second curved leg.

3. Stand up both curved legs, and velcro one tall brace panel (BP) to each curved leg. Velcro remaining center leg between tall brace panels.

4. Position tops (ETO22L and R) on legs. To fasten locking hardware, insert round biscuits into slots, then reach under top and secure clips. Sometimes it is helpful to fasten locking hardware with tops upside down on ground, then have two people lift the top and place on legs.

5. Velcro short flexible panel (EFP) to short center leg (ELCS) to create riser leg. Repeat to create second riser leg. Velcro one short brace panel (BP) to each riser leg, and position legs on pins on top.

6. Velcro remaining short center leg between short brace panels.

7. Position riser tops (ET10L and R) to complete unit. Fasten locking hardware.
