

Mask Considerations:

The CDC (Centers for Disease Control and Prevention) maintains the most up to date information concerning the use of masks for the prevention of COVID-19 and other viruses/diseases. Their guidelines change from time to time based on new information learned about this novel virus. Prior to use of your customized mask from displayit, consult the current guidelines at www.cdc.gov.

Per the CDC guidelines (as of 07/26/2020):

"CDC recommends that people wear masks in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.

Masks may help prevent people who have COVID-19 from spreading the virus to others. Masks are most likely to reduce the spread of COVID-19 when they are widely used by people in public settings.

Masks should NOT be worn by children under the age of 2 or anyone who has trouble breathing, is unconscious, incapacitated, or otherwise unable to remove the mask without assistance."

This product is not designed to replace PPE (Personal Protective Equipment) such as N95 respirators, nor is it designed for clinical/medical settings where risk of exposure to contaminants is high.

This product has not been cleared or approved by the FDA.

The manufacturer and seller of this product make no warranties, either express or implied, that this face covering prevents illness or infection or the transmission of any virus or disease.

Use mask at your own discretion.

Proper Care of Your New Mask:

Machine wash with like colors.

Tumble dry low.

Do not iron.
