

Circle Economy Hanging Sign Assembly Instructions

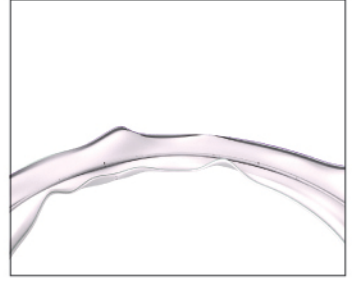

1. Extend and snap together all bungeed poles.

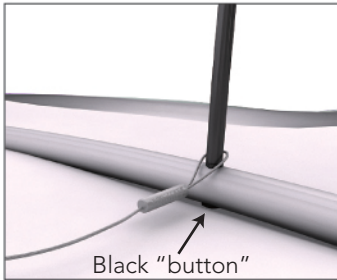

2. Connect poles together to form two circle frames. Correct connections are marked with matching shape labels.

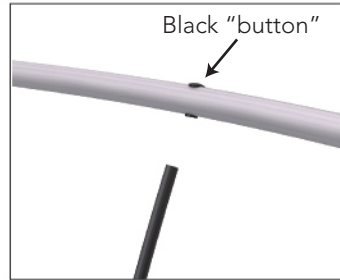

3. Place completed circle frames on top of each other with holes facing each other. Align the black "buttons" on both circles.

4. Open fabric graphic and place the frame on top of it. Align eyelets on inside of fabric graphic with the black "buttons" on top frame.

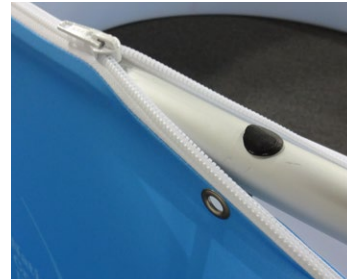

5. Insert pole through cable loop and connect the pole to the bottom circle. Note: Correct wire location is noted by black circular "button" on the frame.

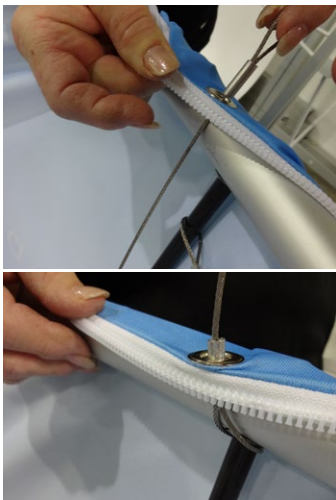

6. The other end of vertical shaft goes into top rectangle. Press down firmly on frame to ensure poles are fully seated.

7. Begin pulling the graphic up the frame. Make sure the grommets in the graphics line up with the black circular "button" on top of the frame.

8. Start zipping the graphic together. When you reach a grommet in the graphic, stop and follow step 9.

9. Feed the other end of the wire through the grommet in the outside of the graphic. Continue zipping the graphic up. Each time you reach a grommet, feed the wire through.

10. Connect other ends of wires to caribeenner and hang the display up.
